## IT Communities Party Web Site

---

### **Burntsand Sponsors the Canadian User Group Association June 8, 2009 in Vancouver, BC**

The Vancouver chapter of the Canadian User Group Association hosted the "Vancouver IT Community Party" on Monday June 8th in Vancouver. Burntsand along with Microsoft sponsored the event. This was the official social event that kicked off DevTeach/SQLTeach Vancouver 2009. The event was not just for the attendees of the conference but was free for everyone. It was a unique chance for attendees, speakers and locals to meet, mingle and talk over free beer. The event was held at the "SOHO Billiards" downtown Vancouver location.

“Burntsand is such an integral part of the IT community in Vancouver that we had to be there. It is a good opportunity to see everyone in a low key, really fun environment and for Burntsand to give a little back to the community. Besides, I have been working on my pool game, I'm down a few games against my team mates and it's time to even some scores.” remarked Burntsand Collaboration Practice Director and long time .NET member Graham Sibley.
