

Burntsand Sponsors New Mississauga SharePoint User Group

Meeting #1 Oct 26 at Microsoft (1950 Meadowvale Blvd. Mississauga, ON L5N 8L9 **from 6 pm – 8:30 pm**)

Topic: What's new in SharePoint 2010:

SharePoint 2010 is being unveiled this week at the Microsoft SharePoint Conference. This session will provide an overview of the product with a particular focus on what's new for developers. The tools included in Visual Studio 2010 for SharePoint 2010 make developers more productive and new hosting options for SharePoint solutions provide more flexibility in deployment. This talk will cover the new designers, explorers and templates and overall developer experience for SharePoint 2010. Along the way we'll see several of the enhancements to the end-user experience including the ribbon, in-place editing, and the new page and dialog interface model.
